

SHREDFEST 4

RV/TRAILER

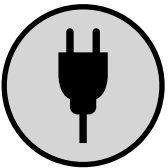

RVs/Trailers will be parked in designated spots in the meadow, approximately 30'x15'. We'll help guide you upon arrival.

Want to camp near another friend with an RV or Trailer? It's best to arrive together to ensure close parking. Give us a heads up when you get in and we'll do our best to help you dial in your compound.

Please plan to fill your fresh water tanks **before** entering the venue. There is potable water on site for drinking but not easily accessible for filling water tanks.

No power or sewer hookups are available at Blue Mountain Event Center. Feel free to bring generators or anything else needed to power your campsite. We'll have a Charge & Chill area setup in the vendor area for charging PEVs

No fires are allowed at your campsite or anywhere at Blue Mountain Event Center with the exception of the main campfire circles located near the stage.

Can your tent-camping friends join you near your RV? Sure! Just keep in mind this is festival-style camping and be mindful of your neighbors.

Tow vehicles for trailers will need to be disconnected and moved out of the meadow once you've parked your trailer. They will be parked in the designated parking area located as you enter the property.
